

GIANT PARTS WASH

Solvent-Based Parts Cleaner

DESCRIPTION

GIANT PARTS WASH is an extremely effective parts cleaner for removing oil, grease, dirt, dust and other contaminants from mechanical parts before assembly or within a Parts Wash Machine.

GIANT PARTS WASH is CFC-free, Silicon-free, and is safe on plastics, rubber and paint. It leaves no residue after use and is safe on most metals.

PROPERTIES

Physical State	Liquid
Color	Clear
pH Value	Not Applicable
Solubility in Water	Insoluble
Density	0.79 ± 0.03 kg/m3

BENEFITS

- Removes oil, grease, dirt and dust
- Leaves no residue
- Safe on most metals
- Safe on plastics, rubber and paint
- CFC-free, Silicon-free

TYPICAL APPLICATIONS

GIANT PARTS WASH can be used directly on the metal components of machineries or for pre-assembly of such components, removing oil, grease, dirt, dust and contaminants on the metal component, commonly found in automotive workshops, fleet maintenance depots, marine vessels, industrial work areas, etc. GIANT PARTS WASH can be used within a Parts Wash machine as it is safe towards plastics or rubber commonly found in such machines.
