

GIANT RESTORE IT

Car Interior Restorer – Cleans & Shines

DESCRIPTION

GIANT RESTORE IT is a blend of silicones and perfumes designed to clean, seal and protect a wide variety of surfaces normally found within the interior of a vehicle. It is suitable for all types of furniture laminates, plastics, rubbers and vinyls commonly found in the automotive industry.

PROPERTIES

Physical State	Liquid
Color	Milky
pH Value	7 - 8
Solubility in Water	Soluble
Density	1.00 ± 0.03 kg/m ³

BENEFITS

- Cleans, shines and protects all at one go.
- Suitable for furniture laminates, plastics, vinyl, rubbers commonly found in the automotive industry.
- Protects car dashboards from the harsh exposures to UV rays.
- Restores plastics and rubbers to their original/new look.
- Non-flammable

TYPICAL APPLICATIONS

GIANT RESTORE IT can be applied directly (without dilution) on the car's interior trims, including dashboards, plastics, vinyl, rubber, wooden laminates, etc. It is an effective protectant from the harmful effects of the sun's UV rays and can also be used for certain common household furniture.

Apply to the surface with a clean and soft cloth, or with an atomizer spray. Spread the liquid evenly on the applied surface. Allow to dry and apply a second coat if necessary.

Always check if application on the material at critical components may lead to slippage, eg. steering wheel, foot pedals, etc.
