

PRODUCT DATA SHEET

GIANT ATF 85/95LE

ATF for BTR Automatic Transmissions 85LE, 91LE, 95LE & 97LE

DESCRIPTION

GIANT ATF 85/95LE is a specially blended Automatic Transmission Fluid for use in BTR 85LE, 91LE, 95LE and 97LE electronic four-speed transmissions.

GIANT ATF 85/95LE ensures full transmission functionality, offers excellent gear durability, excellent thermal and chemical stability, good shift feel on both cold starts and high operating temperatures, and is compatible with all gaskets and seals.

GIANT ATF 85/95LE also exceeds the JASO 1A specifications and has an anti-shudder durability (ASD) equivalent to that of a Toyota Type IV fluid.

PERFORMANCE STANDARDS

Meets or exceeds performance specifications of:

- BTR Engineering for BTR 85LE, 91LE, 95LE & 97LE
- Allison C-4, TES-389
- Voith H55.6335.XX
- Caterpillar TO-2
- GM IIIH, IID, IIE
- JASO 1A

BENEFITS

- Specially formulated for BTR Automatic Transmissions 85LE, 91LE, 95LE & 97LE
- Outstanding gear durability with specialized EP & Anti-Wear additives
- Thermally and chemically stable over a wide range of operating temperatures
- Smooth and quiet gear shifts regardless of operating temperature

TYPICAL APPLICATIONS

- Electronic 4-Speed Transmissions of 6 or 8 Cylinder Ford Falcon, Fairmont, Fairlane and LTD models since 1989.
- GIANT ATF 85/95LE is NOT RECOMMENDED for use in any other transmissions than those specified meeting the above standards.

TYPICAL PROPERTIES

Density, kg/Litre @ 15°C	0.850
Appearance	Red
Kinematic Viscosity, cSt @ 40°C	35.3
Kinematic Viscosity, cSt @ 100°C	6.6
Viscosity Index	144
Flash Point COC, °C	>220
